**NOTICE OF APPLICATION OF  
SOUTHERN CALIFORNIA EDISON COMPANY  
TO DECREASE ELECTRIC RATES  
APPLICATION A.22-05-014**

**Why am I receiving this notice?**

On May 16, 2022, Southern California Edison Company (SCE) filed its application with the California Public Utilities Commission (CPUC) requesting review and approval of its 2023 Energy Resource Recovery Account (ERRA) Forecast Application (ERRA Forecast Application or Application). SCE’s proposed ERRA Forecast-related revenue requirement for 2023 is \$3.898 billion. This is a decrease of \$501.4 million for 2023 as compared to SCE’s 2022 ERRA Forecast-related required revenue.

**Why is SCE requesting this rate decrease?**

- The Application seeks a review and approval of SCE’s estimate of the costs for fuel and power that will be needed to provide electricity for SCE’s customers in 2023.
- The Application is subject to change when SCE submits an updated forecast to the CPUC in October 2022, which may reduce the amount of the decrease or result in an overall rate increase.
- The Application also requests approval of other expenses recoverable in ERRA Forecast proceedings, such as expenses related to spent nuclear fuel (stored nuclear fuel that has already been used); and SCE’s return of \$746.8 million in Greenhouse Gas (GHG) allowance revenues to eligible customers in 2023.

**How could this affect my monthly electric rates?**

If SCE’s rate request is approved, the average residential monthly bill using 500 kWh per month would *decrease* by approximately \$13.52 or 8.4% per month in 2023.

**CUSTOMER BILL IMPACT TABLE**

CARE residential bill	\$ 104.19	\$(8.79)	\$ 95.40	-8.4%

**This Application and the projected rate decrease described in this notice is a forecast and is likely to change prior to including these costs in SCE’s 2023 rates. SCE will update this Application in October 2022, so that the latest forecast assumptions can be incorporated into SCE’s 2023 rates.**

**Note:** SCE understands that many of its customers face challenges in managing their monthly electric bills. The company offers money-saving tools and programs including payment arrangements and extensions, one-time bill assistance from the Energy Assistance Fund of up to \$100 (\$200 for all-electric homes) and debt forgiveness for qualified residential customers enrolled in California Alternate Rates for Energy (CARE) or Family Electric Rate Assistance (FERA) programs. **How does the rest of this process work?**

The Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE’s application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SCE’s application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels.
